

McDougall & Secord's Store News.

The Store of the Town.

To our patrons we wish all the happiness and health which is supposed to abound so plentifully at this particular season of the year. In other words:
A MERRY XMAS TO ALL.

Loose no Time in Calling but take Your Time in Buying.

This week's presentation of our Store News includes the details of a magnificent lot of Russian Sable Furs, which we are able to offer you at the lowest possible price. The rare beauty and serviceableness of Russian Sable are too well known to require any specially worded tribute of praise on this occasion, but it is right for us to say, though, that lovers of sumptuous furs will find the offering a rarely beautiful collection of Scarfs and Muffs. The garments have been made up this season and consequently represent the newest and smartest styles. Some buyers may not care to have their purchase delivered just now,—in such cases arrangements can be made to have the choice laid aside until near Christmas,

Beautiful Russian Sable Scarfs, smart stylish shape, finished with beads and bows. \$75.00

Handsome Scarfs, long Trimby effect. \$75.00
Handsome Russian Sable Muffs, full shape. \$75.00

THE COMING RAILWAY

Saskatchewan Herald: Mr. Vance's parties of C. P. R. surveyors from Saskatoon were this side of the Dauphin settlements on Saturday, making good progress. They are following the line run by Mr. Biggar for the Great North-West Central Railway ten years ago, which ended at the brickyard. Grading will be begun as soon as the frost is out of the ground, and it is calculated that the road will be completed to this point in July.

Two parties are working towards each other between Saskatoon and Kinross, completing the connection with the Moosomin extension.

SASKATOON HOMESTEAD ENTRIES

Phenix: The demand for land in the Saskatoon district is as brisk as ever and each train adds its quota of land seekers and settlers to our community. The total number of homestead entries made at the land office during the month ending Dec. 15th, inclusive was 190. Eighteen hundred settlers' effects arrived here during the past week.

Blizzard in Colorado.

Denver, Col., Dec. 23.—A blizzard, has been raging in eastern Colorado and all the railroads running into Denver are either blocked or badly delayed. The incoming Rock Island train is stuck in the snow at Goodland, Kansas, and the train which should have left here at 9:30 o'clock last night over that road was abandoned. The Union Pacific is blockaded between here and Cheyenne. All the mountain roads are badly crippled. Snow plows have been ordered to the scene on the blockades, Laramie, Wyoming.

Yesterday's blizzard was the worst ever known here. It is believed that considerable loss of life will result. All the stages running from Laramie, except that to Centennial, forty miles distant, returned after vainly trying to bypass the storm. The Centennial stage has not returned and it is feared the driver and his passengers have perished.

A sled from Cheyenne says the coal shortage, which has already caused hardship, has been accentuated by the storm, which has made it impossible to deliver coal in the city. All street traffic has been stopped. The storm continues unrelenting.

Montreal, Quebec, Dec. 17.—Mr. Adam, O., government immigration agent in Montreal, arrived today with 130 young Scotchmen, who have been placed in situations in Manitoba and the West. They left by a special train following their transatlantic journey at 10 a. m., in charge of a government agent.

HOCKEY

The first hockey match of the season was played yesterday afternoon between Edmonton and Strathcona on Strathcona rink and resulted in an easy victory for the visitors, the score being 9 to 3 in favor of Edmonton.

Edmonton team took the 1:30 train and had a large and enthusiastic following, the coach being packed for standing room and many boys riding in a box car. Strathcona supporters also turned out well and there was a large attendance to witness the opening battle of the season. The weather having moderated it was an ideal day for hockey. The ice was in fairly good condition. Goal nets were used.

The puck was started flying shortly before 3 o'clock. Both teams at once went to work and for some time played a close and even game till Edmonton scored a goal. This was quickly followed by two more goals for the visitors when Strathcona took the lead and scored two goals in close succession. The score at the end of the first half stood 3 to 2 in favor of Edmonton with Strathcona showing signs of pulling up.

In the second half, however, Edmonton took the lead and added 5 successive scores to their count. Strathcona made some good rushes and close shots but only succeeded in getting in one goal in the second half, after Edmonton's 5th. This was followed by another goal for Edmonton, being 9 to 1 for the second half in favor of the visitors or a complete score of 9 to 3. Considering that this was the first game of the season and most of the boys have had practically no practice as yet, they played good hockey. The game was neat and clean, not overly fast, but free from any of the "scraps" which marred some of last year's games. The return match will be played New Year's afternoon at Edmonton. C. L. Archibald, captain of the Nelson hockey team, refereed the game giving good satisfaction. R. Aldridge and F. Jackson were umpires. The teams played:

Edmonton. L. Goldridge, goal. Robert, R. Robertson, point. McKorhan, E. Sibbald, cover point. Kent, H. Greenwood, rover. Blain, A. McLeod, forwards. Richards, R. Bellamy, forwards. Ritchie, H. Helliwell, Durrand.

CHRISTMAS TREE

A Christmas tree entertainment was held on Tuesday evening in the German Baptist church, Namayo avenue. The attendance was large, numbering fully 200, and included besides Baptists, Lutherans, Moravians, Methodists, Reformed church and German Catholics. Nowy husbanding the many differences in belief the entertainment was most harmonious. The pastor, Rev. Abraham Hagar presided and delivered an address in German. The superintendent of the Sunday school, Mr. D. Musselman gave an address in English. The choice of the church led by Mr. Redman sang a number of pieces most acceptably. The programme was lengthy, there being about thirty numbers. It was partly in English and partly in German. Presents to the children were distributed from the Christmas tree.

SCOTTISH CONCERT

The Scottish entertainers, Mr. Gavin Spence and Miss Flora Macdonald, were greeted with a very good house on Monday evening. The concert was under the auspices of the St. Andrew's society, and took the place of the usual annual dinner on St. Andrew's night. Both appeared in full highland costume, which was very becoming. Mr. Spence is a good story teller and his songs were much appreciated. Miss Macdonald sang and gave several beautiful highland dances. Her voice is very sweet though not over strong and she received numerous encores. Their second appearance on Tuesday night was met by another good house. They gave a complete change of programme.

METHODIST SUNDAY SCHOOL ENTERTAINMENT

The entertainment given by the children of the Methodist Sunday School last Tuesday evening was a pronounced success. A very pleasing programme including "The defence of Santa Claus" was rendered. Several excellent selections were given by the choir of the school.

A novel feature of the evening was the giving instead of receiving of gifts by the children. Their offerings for those in the town less favored than themselves consisted of toys and such substantial as sacks of flour, potatoes, apples, turkeys, tea, sugar, etc., etc. These were supplemented by a collection from the audience of \$19.

A report read at the close showed the school to be in a flourishing condition. The chair was occupied by the superintendent, Mr. C. W. Mathers.

Saskatchewan Herald: A fire at Prince Albert on the 7th destroyed the premises of Mr. Lacoste, consisting of shop, dwelling and warehouses, with their contents; Miss Garman's shop; with part of her furniture and stock; the Mechanic's Institute and the reading room; Mr. McDonald's building, residence and 3-story residence. The property was only partially insured.

PRESENTATION

The pupils in Mr. Ramsey's department of the public school signified their appreciation of their teacher by presenting him with a carving set on Tuesday afternoon.

In Miss Osborne's department, the girls presented her with a writing set and the boys with a souvenir spoon.

—Yorkton Enterprise. The new five cent pieces for 1927 now in circulation are likely to become curiosities in a short while. If examined closely it will be found the makers of the die have put the crown of Queen Victoria upon the top of the wreath on the reverse side. The form of King Edward's crown is somewhat different from that of his mother, and if a five cent piece is compared with a ten cent piece or a quarter the difference can be easily seen. These five cent pieces are to be called in shortly and taken out of circulation.

Manitoba Wheat for Minneapolis.

Minneapolis Journal, Dec. 17.—John Washburn, William H. Dunwoody and James J. Bell returned this morning from Winnipeg, where they have been for several days in the interests of the Washburn-Crosby Company. Some round lots of the choicest Canadian hard wheat were bought, and shipments will be large and continuous from this time on. Milling in bond in the Humboldt mill of the company has begun, and the operations of the company will be on a larger scale. The quantity of flour turned out under bond will be larger than last year.

The Canadian Northwest, the gentlemen say, presents much the same conditions as at this time last year, the activity in all lines continuing unabated. A late phase of the development has been the rise in realty values in Winnipeg, a recent deal being closed for a very large plot at the figure of \$1500 a foot. All through the provinces the prospective conditions are maintained, the one great handicap being the lack of adequate facilities in the matter of transportation. Despite the greater efforts of the Canadian Pacific to move the crop this year, despite the fact that a much larger quantity has been moved out so far than ever before in a like period, the Minneapolis men found a state of congestion that is a handicap upon grain shippers and farmers. They found the statement that the country is growing ahead of its transportation facilities borne out by evidence on every hand. "I cannot say that the idea of reciprocity and closer trade relationship with the United States has grown much since last year," said John Washburn. "The moneyed interests of Winnipeg and the Canadian Northwest do not incline favorably towards the suggestion. The reports from Detroit as to the views expressed by prominent Canadian business men at that convention are about in line with what one hears in Winnipeg. The Canadian Pacific road is not a factor for closer trade relationship, but rather the contrary. The bankers, and as a rule, the leading merchants, are in different. Their country, they say, is as prosperous as could possibly be desired. Business is good. They are doing very well, and are content."

"But if one goes a little deeper there will be found to be a growing sentiment on the part of the farmer, favoring closer trade relationship with our country. Of course it would be absurd for a superficial observer to try to estimate what proportion of this class favors reciprocity. But from what we saw I believe the idea has grown since last year, and it is to this sentiment on the part of the farmers and grain trade interests only, that American business men who advocate reciprocity, may look for help across the line. They would welcome any change that would enable them to get their grain to market quicker, as they could do if it were possible to ship it to Minneapolis without restriction. The American has worked much into evidence in business lines since last year."

"The banks, hotels, and railroad offices remain almost entirely in the hands of Canadians, but in a few of the mercantile lines American influence is working to the front, while in the grain trade of Manitoba the American influence will soon predominate if the Canadians don't watch out."

A Railway Policy

At a recent meeting of the Winnipeg board of trade the following resolution regarding a policy to be pursued regarding the western railway schemes now under consideration was proposed by ex-Mayor A. Macdonald. Discussion on the resolution will take place at a later date:

Whereas, it is the declared intention of the promoters of the Grand Trunk Pacific railway enterprise to ask Parliament for a valuable railway franchise, and to further demand from Parliament large sums of public money in the shape of donations or guarantees; and

Whereas, it is announced that the Canadian Northern railway company is also seeking further large sums of public money; and

Whereas, the parliament of Canada and the various provincial legislatures have already given, under the heading of aid to railways, donations of money, land grants, bond guarantees, tax and other exemptions, the value of which would in the aggregate amount to not less than five hundred millions of dollars; and

Whereas, no evidence has been adduced to show that these enormous subsidies have been applied to the construction or equipment of the various railways, against which there stand liabilities in stock and bonds to sums greater than the cost of the properties; and

Whereas, it can be shown that the policy of subsidizing private individuals or corporations under the pretext of aiding the construction of railways, has, instead of relieving, actually increased, the disabilities of the people of Canada, in regard to public transportation; and

Whereas, the government of Canada can finance the construction of rail-

ways much more economically than can any private corporation; and

Whereas, the only real solution of our transportation problem lies in the ownership and control by the people of such a system of railways as shall ensure traffic facilities, and shall regulate traffic rates over the whole Dominion;

Therefore, be it resolved, that in the opinion of this board, the policy of donating public moneys or extending the public credit to railway corporations has been demonstrated to be unsound and vicious; that this board, respectfully urges upon the Dominion government and parliament that any donation or bond guarantee be granted to the Grand Trunk Pacific or the Canadian Northern railway; that the government of Canada should forthwith proceed with the work of construction necessary to profitably develop our present system of government railways, by purchasing or building an extension of the Intercolonial railway from Montreal to Lake Superior, as suggested by the present minister of railways, and in conformity with the railway policy on which the government of Manitoba attained office; that a copy of this resolution be forwarded to the government of Canada.

Rush Orders for Cars and Engines

Montreal, Dec. 22.—The Canadian Pacific has awarded a contract to Rhodes, Currie & Co. to build, one hundred refrigerator, ten first class passenger and three hundred flat cars to be delivered early next year. Messrs. Mackenzie and Mann, proprietors of the Canadian Northern railway, have just placed an order for nineteen new locomotives with the Canadian Locomotive Company, Kingston, in addition to the orders already given out. Orders for the construction of seven hundred box cars, to be delivered as soon as possible have also been placed. By the time navigation opens, the Canadian Northern railway will, according to Mr. Mann, who is in the city, be running a through passenger train with its own running power and sleeping cars from Port Arthur to Winnipeg. When asked if the Canadian Northern would reach Edmonton by the end of next year, Mr. Mackenzie said to-day, "It is a long distance to cover for it is almost 500 miles, but if we do not reach that place by the end of 1903, we will get there early the following year."

Lead Duties

Free Press, Mr. W. A. Gallieher, M. P., for Yale-Cariboo, passed through the city yesterday, en route to Ottawa, where he will interview the ministry in regard to the lead duties and other matters pertaining to the Kootenay mining interests. A deputation of miners from British Columbia, will probably go to Ottawa tomorrow to assist Mr. Gallieher in pressing these matters.

Famine in Finland

St. Petersburg, Dec. 19.—Four hundred thousand persons are reported to be destitute and starving as the result of the crop failures in Finland. The Anglo-American church here has undertaken to feed and clothe the school children of four Finnish parishes, and Pastor Francis says: The conditions to-day are worse than those of 1867, when 100,000 persons died.

New C. P. R. Winnipeg Offices

Free Press: A lease for two years was obtained to-day by the C. P. R. for offices in the National Trust building, corner of Notre Dame and Main street. The offices, which will be on the second floor of the building, will be occupied by the general passenger and freight departments. This will leave more room at the depot building for the operating department, which has greatly expanded during the past two years, and requires more room. The lease, it will be noticed, is not for a very long term, and is significant, in that it shows that the company contemplates getting into new offices by that time.

The Japanese in B. C.

Ottawa, Dec. 20.—Although no official intimation has yet reached the state department, it is known that Noyse, consul general for Japan in Canada, has made a formal protest to the British foreign office against the arrest of nineteen of his countrymen in British Columbia, because they could not read and write in European language. Doubtless the same department will ultimately be apprised of the protest, but in the meantime the incident will have been closed by the release of prisoners.

REVILLON FRERES

New Store,
New Goods,
Latest Styles,
Lowest Prices.

Every holiday season large sums are sent away from Edmonton to Eastern departmental stores for the better class of furs, dress goods, coats, cloaks, etc. We are here to stop the leak—to keep Edmonton money for Edmonton trade. You don't need to send to Toronto or Montreal for the articles of extra quality you require. Toronto and Montreal procure their stocks from New York, London and Paris. We bring New York, London and Paris goods direct to you so that you can inspect and choose at will, not depending on the chances or submitting to the delay of a mail order. Our goods are the best, our prices are right. Call and be convinced. We have special lines in every department for the Christmas Trade.

Dry Goods, Clothing, House Furnishings, Boots and Shoes, Crockery, Groceries, Hardware, Stoves, Tin and Granite Ware, Etc., Etc. All New and Up-to-Date.

C & E SURVEY

Following upon the announcement of the application of the C. & E. Company for extensions of their charter north of the Saskatchewan river, that company has placed a party in the field to survey a crossing of the river. P. Turner, H. G. E. of Calgary, arrived on Saturday last and has since been engaged with a small party in making surveys from Strathcona to the river. The preliminary line starts from the end of the Y. and follows a small side gully into the Mill Creek valley just above the Vogel Company's packing house. It enters the valley at a considerably higher level than the road bed on the R. Y. & P. As yet the line has not been completed to the river but it is reported to be the intention to carry it along the broken bank of the river to Walter's flat.

C. N. R. SURVEY

Mr. H. McLeod, chief engineer of the Canadian Northern, returned on Wednesday from a trip along the easterly line of the projected railway as far as Vegreville. He met McFarlane's railway survey party coming west and leading the C. N. R. line for which he ran the preliminary survey easterly in the fall. McFarlane's party met the party which was running the preliminary survey west from Hatfield some place east of Vegreville. Each party then turned back over their work to make the location survey. McFarlane is now back nearly to the Beaver Hills.

CHRISTMAS SERVICES AT ST. JOACHIM'S CHURCH

Solemn high mass at midnight was held Christmas morning commencing at 12 p. m. Wednesday night. It was sung by Rev. Father Lemarchand. The sermon was preached by Rev. Father Leduc in French, English and Cree. The mass was preceded by a canticle in French, liturgies, vespers, and the usual of the mass was from the Mass of the Holy Spirit. During the communion and the second mass the choir sang appropriate hymns in French and English.

C. P. R. SURVEY

James' party of C. P. R. surveyors is working easterly from Fort Saskatchewan practically following the line already staked by McFarlane's C. N. R. party.
